2. Purpose & Scope

Purpose

To define the specific responsibilities of all roles involved in Aeria Solutions' RPAS operations, ensuring compliance with Canadian Aviation Regulations (CARs), safe operational practices, and accountability across all mission phases.

Scope

This policy applies to all Aeria Solutions RPAS personnel, including Accountable Executives, Operations Managers, Maintenance Managers, Pilots in Command (PIC), and Visual Observers (VO), as well as subcontractors working under Aeria Solutions' operational control.

3. Definitions & References

Definitions

- RPAS – Remotely Piloted Aircraft Systems.
- PIC – Pilot in Command.
- VO – Visual Observer.
- SFOC – Special Flight Operations Certificate.

References

- Canadian Aviation Regulations, Part IX

4. Policy Statement

Aeria Solutions requires that all personnel involved in RPAS operations fulfill clearly defined roles and responsibilities. These responsibilities ensure compliance with Transport Canada regulations, operational safety, and company standards.

5. Procedures

Tools, Forms, or Checklists to be Used

- Operations Planning Documents (CONOPS, Site Survey, SORA, Flight Plan).
- AirData logs (pilot recency, maintenance).
- Safety Checklists (Take-off, Landing, Emergency Procedures, etc).

Safety/Compliance/Quality Requirements

- Compliance with CARs Part IX.
- Adherence to Aeria Solutions Policies and Procedures.
- All personnel must complete relevant orientation, training, and recertification.

Reporting or Escalation Processes

- Any failure to meet responsibilities must be reported to the Operations Manager.
- Serious breaches (e.g., regulatory non-compliance, safety risks) escalate to the Accountable Executive.
- Incident/accident reporting must follow the Aeria Operations Manual and HSE protocols.

6. Roles & Responsibilities

Accountable Executive

- Holds ultimate accountability for legal compliance of all RPAS activities.
- Confirms operational feasibility and regulatory permissions.

- Ensures personnel are properly licensed and certified.
- Oversees maintenance, storage, inventory, and tracking of equipment.
- Submits or approves flight requests for advanced and special operations.
- Maintains communication with Transport Canada and ensures insurance coverage.

Operations Manager

- Plans and manages daily operations, logistics, and personnel deployment.
- Ensures compliance with safety regulations and Aeria procedures.
- Liaises with clients and stakeholders.
- Briefs crew on operational planning documents.
- Validates maintenance compliance and equipment readiness.
- Conducts incident and accident investigations.

Maintenance Manager

- Manages maintenance scheduling and ensures compliance with manufacturer and regulatory standards.
- Maintains accurate maintenance logs and equipment records.
- Locks out non-compliant or damaged equipment.
- Ensures RPAS airworthiness before field deployment.
- Coordinates with manufacturers for repairs and updates.

Pilot in Command (PIC)

- Holds Advanced RPAS Operator Certificate and ROC-A license.
- Ensures personal compliance with recency and training requirements.
- Maintains fitness for duty in accordance with CAR 901.19.
- Has sole responsibility for RPAS safety while armed or in flight.
- Monitors RPAS performance and maintains constant communication with VO.
- Adheres to all operational planning documents and SOPs.

Visual Observer (VO)

- Maintains continuous VLOS (Visual Line of Sight) with RPAS.
- Monitors airspace for hazards and communicates risks to PIC.
- Maintains a sterile cockpit environment for the PIC.
- Supports situational awareness and flight safety.
- Participates in pre-flight and post-flight briefings and debriefings.

7. Monitoring, Compliance & Enforcement

How Compliance Will Be Monitored

- Internal audits of flight logs, training, and maintenance records.
- Regular operational reviews and crew performance assessments.
- Annual HSE and RPAS program review (AGM)

Consequences for Non-Compliance

- Removal from operational duty.
- Mandatory retraining or recertification.
- Progressive discipline up to contract termination for repeated or serious violations.

Reporting Obligations

- All operations must be logged in AirData and retained for 24 months.
- Mandatory reporting to Transport Canada and/or the Transportation Safety Board as required by law.
