2. Purpose & Scope

Purpose

To ensure that all personnel engaged in Aeria Solutions operations are prepared to respond effectively to emergencies by following the official Emergency Procedures.

Scope

This policy applies to all Aeria Solutions employees, contractors, and subcontractors involved in RPAS operations and field activities.

3. Definitions & References

Definitions

- Emergency Procedures: Formal workflows for responding to RPAS failures, communication losses, environmental hazards, crashes, and other operational emergencies.
- ERP (Emergency Response Plan): Broader company HSE emergency procedures that complement RPAS-specific protocols.

References

- Aeria RPAS Procedures
- Aeria HSE Procedures
- Emergency Procedure PDFs (RPAS Procedures Docs)

4. Policy Statement

All personnel must follow Aeria Solutions' approved Emergency Procedures during operations. These procedures are mandatory and define the standard response to RPAS related or site -related emergencies. Deviation is not permitted except under approved amendments or adaptations by the Pilot in Command (PIC) in immediate safety -of-life circumstances.

5. Procedures

Step-by-Step Actions

Access Procedures:

- All personnel must be familiar with the Emergency Procedures PDFs provided in the RPAS Procedures Docs

Adherence:

- Emergency Procedures must be followed in their entirety whenever an emergency occurs.
- If an unforeseen situation arises, the PIC must take immediate safe action and report the deviation.

Reporting:

- All emergency activations must be reported through the Incident Reporting and Investigation system.

Roles & Responsibilities for Each Step

- Accountable Executive: Ensures emergency procedures are reviewed annually and integrated into the RPAS Operations and HSE frameworks.
- Operations Manager: Confirms that crews have access to and are trained on current procedures.
- PIC: Leads the response during RPAS emergencies and ensures procedures are executed.

- VO & Crew Members: Support the PIC, maintain situational awareness, and assist in following procedures

Tools, Forms, or Checklists to be Used

- Emergency Procedure PDFs (RPAS Procedures Docs)
- Incident Reporting Form
- ERP Training Acknowledgment

Safety/Compliance/Quality Requirements

- Procedures are aligned with CARs Part IX requirements and Aeria HSE ERP standards.
- Non-compliance places personnel, equipment, and the public at risk and is considered a serious breach.

Reporting or Escalation Processes

- Emergencies must be reported immediately to the Operations Manager.
- Significant emergencies (injuries, collisions, fly-aways) must be escalated to the Accountable Executive and Transport Canada/TSB as required.

6. Roles & Responsibilities

Management

- Maintain accurate and up-to-date emergency procedures.
- Allocate resources for training and drills.

Supervisors

- Lead emergency responses in accordance with procedures.
- Report and document all emergency incidents.

Staff

- Follow instructions during emergencies.
- Support the PIC and maintain compliance with procedures.

7. Monitoring, Compliance & Enforcement

How Compliance Will Be Monitored

- Emergency drill participation.
- Incident investigation reviews.
- Annual policy and ERP review.

Consequences for Non-Compliance

- Immediate removal from operational duty.
- Mandatory retraining before return to duty.
- Disciplinary action up to termination for repeated or deliberate violations.

Reporting Obligations

- All emergency responses must be documented in incident reports.
- Reports retained for minimum 12–24 months as required by CARs and HSE systems

8. Sign-Off & Acknowledgment
