2. Purpose & Scope

Purpose

To ensure safe, reliable, and standardized communication practices during all RPAS operations by mandating adherence to Aeria Solutions' approved communication protocols.

Scope

This policy applies to all Aeria Solutions employees, contractors, and subcontractors who participate in RPAS operations, including Pilots in Command (PIC), Visual Observers (VO), Operations Managers, and field crew.

3. Definitions & References

Definitions

- Communication Protocols: Pre-established procedures and standards for verbal, radio, or digital communications before, during, and after RPAS operations.
- Sterile Cockpit: A communications rule requiring minimal distractions during critical phases of operation.

References

- Aeria RPAS Policies
- Aeria HSE Policies
- Canadian Aviation Regulations Part IX

4. Policy Statement

All RPAS operations conducted by Aeria Solutions must follow the company's approved communication procedures. These procedures are mandatory and form a critical part of operational safety. Clear, accurate, and timely communication is required between all crew members, clients, and external authorities as applicable.

5. Procedures

Step-by-Step Actions

Access Procedures:

- Operators must review the latest communication procedure PDFs provided in the Operators Access Folder.

Adherence:

- All personnel must use the approved protocols for pre-flight, in-flight, post-flight, and emergency communications.
- Unauthorized or improvised communication practices are prohibited.

Escalation:

- Any communication failure or deviation from protocol must be reported immediately as an incident.

Roles & Responsibilities for Each Step

- Accountable Executive: Approves communication standards and ensures compliance with CARs and client requirements.
- Operations Manager: Confirms crews are trained and have access to current procedures.
- PIC: Enforces communication protocols during flight operations.
- VO & Crew: Maintain clear and accurate communication with PIC and team members at all times.

Tools, Forms, or Checklists to be Used

- Communication Procedure PDFs (RPAS Procedures Docs)
- Radio/Comms Equipment Inspection Logs
- Incident Reporting Forms

Safety/Compliance/Quality Requirements

- Compliance with CARs Part IX requirements for RPAS communications.
- Use of ROC-A-certified personnel for aeronautical radio communication.
- Communications must follow approved frequencies and avoid interference with other airspace users.

Reporting or Escalation Processes

- Communication failures logged as incidents.
- Escalations are directed to the Operations Manager and reported to the Accountable Executive if unresolved.

6. Roles & Responsibilities

Management

- Approve, maintain, and update communications standards.
- Provide necessary tools, training, and oversight.

Supervisors

- Ensure communications protocols are followed on-site.
- Conduct periodic audits of communication practices.

Staff

- Follow communication procedures without deviation.
- Report failures or difficulties immediately.

7. Monitoring, Compliance & Enforcement

How Compliance Will Be Monitored

- Spot checks during operations.
- Post-flight debriefs.
- Annual compliance review.

Consequences for Non-Compliance

- Removal from operational duty.
- Mandatory retraining in communication protocols.
- Disciplinary action for repeated or serious breaches.

Reporting Obligations

- All communication-related incidents must be documented and retained in accordance with Aeria's record-keeping requirements.

8. Sign-Off & Acknowledgment
