2. Purpose & Scope

Purpose

This policy exists to establish a comprehensive Safety Management System (SMS) at Aeria Solutions Ltd. to ensure a safe and healthy work environment. Its objectives include identifying hazards, managing risks, ensuring compliance with regulations, and fostering continuous improvement to prevent workplace incidents and injuries.

Scope

This policy applies to all employees, contractors, and visitors involved in Aeria Solutions Ltd.'s operations, covering all departments, roles, activities, and locations where the company conducts business.

3. Definitions & References

Definitions

- Safety Management System (SMS): A structured framework for managing safety risks and ensuring compliance with health and safety regulations.

- Hazard Identification: The process of recognizing potential sources of harm in the workplace.
- Risk Assessment: Evaluating the likelihood and severity of identified hazards to implement controls.

References

- BC Occupational Health and Safety Regulation.
- Workers Compensation Act (British Columbia).
- Aeria Solutions Ltd. Health & Safety Policy.
- ISO 45001:2018 Occupational Health and Safety Management Systems.

4. Policy Statement

Aeria Solutions Ltd. is committed to implementing and maintaining an effective Safety Management System to proactively manage health and safety risks. We aim to provide a safe working environment by identifying hazards, assessing risks, ensuring regulatory compliance, and promoting a culture of safety through continuous monitoring and improvement.

5. Procedures

Step-by-Step Actions

- System Development: Design and document the SMS framework, including policies and procedures.
- Hazard Identification: Conduct regular hazard assessments to identify potential risks in the workplace.
- Risk Control: Implement and monitor control measures to mitigate identified risks.
- Training Implementation: Provide ongoing safety training to all personnel to ensure competency.
- Performance Review: Conduct periodic reviews and audits to assess SMS effectiveness and compliance.

Roles & Responsibilities for Each Step

- System Development: Management and HSE team.
- Hazard Identification: HSE Representatives and supervisors.
- Risk Control: Project Managers and safety officers.
- Training Implementation: Training coordinators and HSE Management.
- Performance Review: HSE team and external auditors.

Tools, Forms, or Checklists to be Used

- Hazard assessment forms (e.g., FLRA/FLHA)
- Risk control checklists
- Training records
- Audit templates.

Safety/Compliance/Quality Requirements

Adherence to BC OHS Regulation, ISO 45001 standards, and internal safety protocols during all procedures.

Reporting or Escalation Processes

Report hazards or issues to supervisors; escalate unresolved matters to HSE Representatives or management within 24 hours.

6. Roles & Responsibilities

- **Management** : Accountable for developing, funding, and overseeing the SMS, ensuring resources and leadership support its implementation.
- **Supervisors** : Ensure team compliance with SMS procedures, conduct regular safety checks, and report hazards promptly.
- **Staff** : Participate in training, report hazards, and follow SMS protocols to maintain a safe workplace.

7. Monitoring, Compliance & Enforcement

- **How Compliance Will Be Monitored** : Through monthly safety audits, incident investigations, and annual SMS performance reviews to ensure adherence.
- **Consequences for Non -Compliance** : Disciplinary actions including warnings, retraining, or termination, with legal action possible for serious breaches.
- **Reporting Obligations** : All hazards, incidents, or non-compliance issues must be reported to HSE Representatives within 24 hours.

8. Sign-Off & Acknowledgment
