2. Purpose & Scope

Purpose

This policy exists to ensure all personnel at Aeria Solutions Ltd. possess the necessary certifications and qualifications to perform their roles safely and effectively. Its objectives include maintaining a skilled workforce, ensuring compliance with regulatory and industry standards, and reducing risks associated with inadequate training, addressing the problem of competency gaps in safety-critical tasks.

Scope

This policy applies to all employees, contractors, and supervisors involved in Aeria Solutions Ltd.'s operations, covering all roles, activities, and locations where safety-sensitive work is conducted.

3. Definitions & References

Definitions

- Certification: Official recognition that an individual has completed required training and meets specific safety or technical standards.

- Qualification: Demonstrated competency or experience required for a specific job role or task.
- Safety-Sensitive Work: Tasks where performance lapses could lead to serious injury or environmental harm.

References

- BC Occupational Health and Safety Regulation.
- Workers Compensation Act (British Columbia).
- Aeria Solutions Ltd. Health & Safety Policy.
- Industry-specific certification standards (e.g., COR, ISO 45001).

4. Policy Statement

Aeria Solutions Ltd. is committed to ensuring that all employees, contractors, and supervisors hold the appropriate certifications and qualifications for their roles. We prioritize safety by mandating ongoing training, verification of credentials, and adherence to industry standards to maintain a competent and safe workforce.

5. Procedures

Step-by-Step Actions

- Credential Assessment: Evaluate the current certifications and qualifications of all personnel.
- Training Enrollment: Enroll individuals in required training programs based on role requirements.
- Certification Verification: Confirm and document the validity of all certifications and qualifications.
- Recertification Scheduling: Schedule and track regular recertification to maintain competency.
- Audit Compliance: Conduct periodic audits to ensure ongoing adherence to certification standards.

Roles & Responsibilities for Each Step

- Credential Assessment: HR and HSE Management.
- Training Enrollment: Training coordinators and supervisors.
- Certification Verification: HSE Representatives and HR.
- Recertification Scheduling: HSE team and administrative staff.
- Audit Compliance: HSE team and external auditors.

Tools, Forms, or Checklists to be Used

- Certification tracking forms
- Training enrollment logs
- Audit checklists
- Qualification verification templates.

Safety/Compliance/Quality Requirements

Compliance with BC OHS Regulation, industry certification standards, and internal safety protocols during all procedures.

Reporting or Escalation Processes

Report certification issues to supervisors; escalate unresolved concerns to HSE Representatives or management within 24 hours.

6. Roles & Responsibilities

- **Management** : Oversee the development and funding of certification programs, ensuring resources are available for training and compliance.
- **Supervisors** : Verify team members' certifications, enforce training participation, and report gaps to management.
- **Staff** : Maintain current certifications, participate in required training, and report expired credentials promptly.

7. Monitoring, Compliance & Enforcement

- **How Compliance Will Be Monitored** : Through quarterly audits of certification records, training attendance logs, and periodic skill assessments to ensure adherence.
- **Consequences for Non -Compliance** : Disciplinary actions including suspension from safety-sensitive tasks, retraining, or termination for failure to maintain required credentials.
- **Reporting Obligations** : All certification lapses or training needs must be reported to supervisors within 24 hours.

8. Sign-Off & Acknowledgment
