2. Purpose & Scope

Purpose

This policy exists to promote safe operation, maintenance, and use of vehicles at Aeria Solutions Ltd. to prevent accidents, injuries, and property damage. Its objectives include ensuring compliance with regulatory standards, reducing vehicle -related risks , and fostering a culture of safe driving, addressing the high incidence of vehicle strikes and collisions in construction environments.

Scope

This policy applies to all employees, contractors, and authorized drivers operating company vehicles or personal vehicles for business purposes, covering all operational sites, travel routes, and construction activities.

3. Definitions & References

Definitions

- Vehicle: Any motorized equipment used for transport, including trucks, vans, heavy machinery, and off-road vehicles.

- Pre-Shift Inspection: A daily visual and functional check of vehicle components to ensure operational safety.
- Spotter: A trained individual responsible for observing and signaling during vehicle maneuvers, such as backing up.

References

- BC Occupational Health and Safety Regulation (Part 16 - Mobile Equipment, including sections on seat belts, restraints, and vehicle maintenance).
- Workers Compensation Act (British Columbia), Part 3 - Rights and Responsibilities.
- Aeria Solutions Ltd. Distracted Driving Policy.
- CSA Standards (e.g., Z150-16 for forklift safety); WorkSafeBC Guidelines on Vehicle Safety in Construction.

4. Policy Statement

Aeria Solutions Ltd. is committed to ensuring the safe operation and maintenance of all vehicles used in our operations. We require all drivers to adhere to regulatory standards, conduct pre-use inspections, and follow safe driving practices to prevent accidents and protect workers, pedestrians, and property.

5. Procedures

Step-by-Step Actions

- Pre-Shift Inspection: Perform a daily inspection of vehicle components, including tires, brakes, lights, and safety devices.
- Driver Authorization: Verify driver qualifications, licensing, and training before assigning vehicle use.
- Site Traffic Management: Plan routes to minimize backing, use spotters for maneuvers, and segregate pedestrian and vehicle paths.
- Maintenance Scheduling: Conduct regular scheduled maintenance and immediate repairs for identified defects.
- Incident Reporting: Document and investigate all vehicle incidents or near-misses promptly.

Roles & Responsibilities for Each Step

- Pre-Shift Inspection: Assigned drivers and operators.
- Driver Authorization: Supervisors and HSE Management.
- Site Traffic Management: Site supervisors and spotters.
- Maintenance Scheduling: Fleet managers and maintenance team.
- Incident Reporting: All involved parties, overseen by HSE Representatives.

Tools, Forms, or Checklists to be Used

- Vehicle pre-trip inspection checklists
- Driver training logs
- Incident report forms
- Maintenance schedules.

Safety/Compliance/Quality Requirements

Compliance with BC OHS Regulation Part 16, including seat belt usage, restraint systems, and visibility enhancements; adherence to WorkSafeBC guidelines for construction site traffic.

Reporting or Escalation Processes

Report defects or incidents immediately to supervisors; escalate serious issues or non-compliance to HSE Representatives or management within 24 hours for investigation.

6. Roles & Responsibilities

- **Management** : Provide resources for vehicle maintenance, ensure driver training programs, and enforce policy compliance through audits.
- **Supervisors** : Assign qualified drivers, monitor site traffic, and conduct spotter oversight during high -risk maneuvers.
- **Staff** : Complete pre -shift inspections, follow safe driving protocols, wear required PPE (e.g., high-visibility vests), and report hazards.

7. Monitoring, Compliance & Enforcement

- **How Compliance Will Be Monitored** : Through weekly vehicle inspections, monthly fleet audits, driver performance reviews, and site traffic observations.
- **Consequences for Non -Compliance** : Progressive discipline, including warnings, suspension of driving privileges, retraining, or termination, with immediate vehicle removal for unsafe conditions.
- **Reporting Obligations** : All vehicle incidents, defects, or near-misses must be reported to HSE Representatives within 24 hours; annual MVR checks required for drivers.
