2. Purpose & Scope

Purpose

This policy exists to integrate health, safety, and environmental (HSE) principles at Aeria Solutions Ltd. to minimize environmental impact and ensure worker safety. Its objectives include complying with regulations, reducing ecological harm, and fostering sustainable practices, addressing challenges like pollution and resource depletion.

Scope

This policy applies to all employees, contractors, and visitors at Aeria Solutions Ltd., covering all operational sites, projects, and activities that affect health, safety, or the environment.

3. Definitions & References

Definitions

- HSE: Health, Safety, and Environmental management framework to protect workers and the ecosystem.

- Environmental Impact: Any effect on air, water, soil, or biodiversity from company operations.
- Sustainable Practice: Methods that meet current needs without compromising future resources.

References

- BC Environmental Management Act.
- BC Occupational Health and Safety Regulation (Part 4 - General Conditions).
- Aeria Solutions Ltd. Health & Safety Policy.
- ISO 14001:2015 Environmental Management Systems.

4. Policy Statement

Aeria Solutions Ltd. is dedicated to integrating health, safety, and environmental stewardship into all operations. We commit to complying with applicable laws, minimizing our environmental footprint, promoting sustainable practices, and ensuring the well-being of all personnel through proactive HSE management.

5. Procedures

Step-by-Step Actions

- Environmental Assessment: Conduct initial and periodic assessments of environmental risks at all sites.
- Safety Integration: Incorporate safety protocols with environmental controls in daily operations.
- Waste Management: Implement recycling, reduction, and proper disposal practices.
- Training Program: Provide ongoing HSE training for all personnel.
- Compliance Audit: Perform regular audits to ensure adherence to HSE standards.

Roles & Responsibilities for Each Step

- Environmental Assessment: HSE Representatives and environmental officers.
- Safety Integration: Supervisors and safety officers.

- Waste Management: Facilities team and project managers.
- Training Program: Training coordinators and HSE Management.
- Compliance Audit: HSE team and external auditors.

Tools, Forms, or Checklists to be Used

- Environmental impact assessment forms
- Safety checklists
- Waste tracking logs
- Training records
- Audit reports.

Safety/Compliance/Quality Requirements

Adherence to BC Environmental Management Act, OHS Regulation Part 4, and ISO 14001 standards during all procedures.

Reporting or Escalation Processes

Report environmental or safety issues to supervisors; escalate unresolved concerns to HSE Representatives within 24 hours.

6. Roles & Responsibilities

- **Management** : Oversee HSE policy development, allocate resources, and ensure compliance with environmental laws.
- **Supervisors** : Monitor site compliance, enforce safety and environmental practices, and report issues.
- **Staff** : Follow HSE protocols, report hazards or spills, and participate in training.

7. Monitoring, Compliance & Enforcement

- **How Compliance Will Be Monitored** : Through monthly environmental audits, safety inspections, and annual HSE performance reviews.
- **Consequences for Non -Compliance** : Warnings, retraining, or termination for violations, with legal action possible for significant environmental breaches.

- **Reporting Obligations** : All incidents, spills, or non-compliance must be reported to HSE Representatives within 24 hours.
