## 2. Purpose & Scope

### Purpose

This policy exists to prevent fatigue -related incidents at Aeria Solutions Ltd. by managing work hours and promoting well -being. Its objectives include reducing errors, ensuring safety compliance, and supporting healthy work -life balance, addressing the challenge of fatigue in high -risk operational environments.

### Scope

This policy applies to all employees, contractors, and supervisors at Aeria Solutions Ltd., covering all work sites, shifts, and activities where fatigue may impact performance.

## 3. Definitions & References

### Definitions

- Fatigue: A state of physical or mental exhaustion that reduces a worker's ability to perform safely.
- Work Hour Limits: Maximum allowable hours per shift or week to prevent fatigue.
- Rest Break: Scheduled downtime to allow recovery from work demands.

## References

- BC Occupational Health and Safety Regulation (Section 4.43 - Fatigue Management).
- Workers Compensation Act (British Columbia), Part 3 - Rights and Responsibilities.
- Aeria Solutions Ltd. Health & Safety Policy.
- WorkSafeBC Guidelines on Fatigue Management.

## 4. Policy Statement

Aeria Solutions Ltd. is committed to managing fatigue to ensure the safety and health of all personnel. We enforce work hour limits, provide rest breaks, and encourage reporting of fatigue symptoms, while complying with all relevant health and safety regulations.

## 5. Procedures

### Step-by-Step Actions

- Work Scheduling: Establish shift schedules adhering to maximum hour limits (e.g., 12 hours per shift, 60 hours per week).
- Fatigue Monitoring: Train supervisors to recognize fatigue signs and conduct regular check-ins.
- Rest Breaks: Mandate and enforce scheduled breaks (e.g., 30 minutes every 5 hours).
- Reporting Process: Allow workers to report fatigue concerns without reprisal.
- Review Adjustment: Assess and adjust schedules based on fatigue incident data.

### Roles & Responsibilities for Each Step

- Work Scheduling: Management and HR.
- Fatigue Monitoring: Supervisors and HSE Representatives.
- Rest Breaks: All employees, monitored by supervisors.
- Reporting Process: All employees, supported by supervisors.
- Review Adjustment: HSE team and management.

## Tools, Forms, or Checklists to be Used

- Shift schedules
- Fatigue observation checklists
- Break log sheets
- Incident report forms
- Review records.

## Safety/Compliance/Quality Requirements

Adherence to BC OHS Regulation Section 4.43 and WorkSafeBC fatigue guidelines during scheduling and monitoring.

## Reporting or Escalation Processes

Report fatigue concerns to supervisors; escalate persistent issues to HSE Representatives within 24 hours.

## 6. Roles & Responsibilities

- **Management** : Develop schedules, provide training, and ensure compliance with fatigue limits.
- **Supervisors** : Monitor worker fatigue, enforce breaks, and report concerns to management.
- **Staff** : Adhere to schedules, take required breaks, and report fatigue symptoms promptly.

## 7. Monitoring, Compliance & Enforcement

- **How Compliance Will Be Monitored** : Through weekly schedule reviews, fatigue incident logs, and employee feedback to ensure adherence.
- **Consequences for Non -Compliance** : Warnings, schedule adjustments, or disciplinary action for exceeding limits, with retraining for supervisors failing to enforce.
- **Reporting Obligations** : All fatigue incidents or non -compliance must be reported to supervisors within 24 hours.

## 8. Sign-Off & Acknowledgment

### Approval Sign-Off

| Role     | Name                         | Signature | Date         |
|----------|------------------------------|-----------|--------------|
| Author   | <a href="#">Dustin Wales</a> | <hr/>     | Sep 18, 2025 |
| Reviewer | Person                       | <hr/>     | Date         |
| Approver | Person                       | <hr/>     | Date         |

### Employee Acknowledgment Section

I, Person , acknowledge that I have read, understood, and agree to abide by the terms and conditions outlined in this Policy & Procedure document.
